

Introducing...

NESOSC'S 35TH ANNIVERSARY SALT

2013 marks the 35th anniversary of the founding of NESOSC, the first open salt collectors' club. To commemorate the anniversary, the Board has commissioned an open salt made by David McDermott of Cape Cod, MA.

The salts are a classic urn design on a short pedestal base. They are individually hand blown and may vary slightly in size. They are available in two colors – white or blue. Each has a metallic rim and is signed “NESOSC 35 yrs. 2013”.

The salts were introduced at the convention in Newport and are now available to those who were not at the convention. These are being made to order so there may be a slight delay before shipping. There are a limited number of white ones left. The blue ones will be available throughout 2013.

35th Anniversary NESOSC Salts in white or blue glass.
